

Sallu Conteh

Electrical & Electronic Engineer

CONTACT

contehsallu2019@gmail.com

Makeni, Sierra Leone

COMPUTER & IT

- MS Office incl. complex Excel formulas, Access, Publisher
- MATLAB incl. fuzzy logic
- Visual Basic .NET
- SPSS
- Microcomputer engineering
- Windows XP–10 installation & maintenance; MS-DOS
- Touch typing

ENGINEERING

- Preventive maintenance
- HV/LV fault finding
- Generator-set maintenance & synchronisation
- Testing & inspection
- Health & safety

STRENGTHS

- Reliable and well organised
- Clear communicator, incl. to non-technical people
- Works well under pressure and meets deadlines
- Strong problem-solving
- Team player and independent learner
- Professional integrity

PROFILE

Electrical and Electronic Engineering graduate of Fourah Bay College, University of Sierra Leone, with postgraduate study in renewable energy and the environment. Hands-on experience maintaining high-voltage Caterpillar generator sets and electrical installations at MANTRAC (Caterpillar) SL Limited, and lecturing engineering and business mathematics at IAMTECH College.

EXPERIENCE

Voluntary Lecturer — Jun 2018 – Oct 2018

IAMTECH College · Kissy Dockyard, Freetown

- Lectured Business Mathematics for Diploma classes
- Lectured Engineering Mathematics for first-year degree students
- Lectured Business Mathematics for Higher National Diploma (HND) classes

Industrial Attachment — Electrical — Jan 2017 – Mar 2017

MANTRAC (Caterpillar) SL Limited · Freetown, Sierra Leone

- Carried out preventive maintenance on electrical installations and equipment, including plant machines, excavators, bulldozers, power lines and circuit breakers
- Found faults on complex low- and high-voltage networks, critical systems and equipment, diagnosing problems and finding solutions
- At the Kingtom main power station, maintained high-voltage Caterpillar generator sets synchronised with the two main generators and the supply from Bumbuna, for safe, reliable and balanced electricity distribution to the Western Area
- Made sure portable equipment and fixed installations were tested and routine inspections carried out
- Completed tasks assigned by supervisors on time

EDUCATION

MSc in Renewable Energy Study and the Environment

BSc in Electrical and Electronic Engineering — Oct 2013 – Apr 2018

Fourah Bay College, University of Sierra Leone

- Final-year project: Cell-phone-based soft starting of an induction motor with current control

Certificate in Computer Software — Feb 2017 – Dec 2017

Government Technical Institute, Freetown

- Grade: First Division
- MS-DOS, MS Windows, MS Word, Excel, Access, PowerPoint and Publisher

West African Senior School Certificate Examination (WASSCE) — Sep 2006 – Jul 2011

Saint Francis Secondary School, Makeni

- Eight credits, including English, Mathematics, Physics, Chemistry and Engineering Science

Basic Education Certificate Examination (BECE) — Sep 2003 – Jul 2006

The Islamic Secondary School, Kenema

- Aggregate 14 in eight subjects, including grade 2 in Mathematics and grade 3 in English

PROJECT

Cell-Phone-Based Soft Starting of an Induction Motor with Current Control

BSc Final-Year Project

A soft-starting system for an induction motor that limits the starting current and can be controlled from a mobile phone.

TRAINING

Graduate Internship Programme — Orientation Training — Sep 2017

National Youth Commission, Sierra Leone
